How EduBotGames looks, sounds and plays.

The logo, Robo and his crew, color, type and the first banners. Use it for the app, the demo video and anything we print. If something is not in here yet, ask before you invent it.

01 Brand

Concept by Cezary Dynak & Bart Szczepanski. Design by Bart Szczepanski © 2026

A parent sets what to learn. The kid says what game to play, and a team of AI agents builds it.

The teal is the school chalkboard. The logo is a game controller in a graduation cap: playing and learning in one face.

Four rules behind every decision in this book.

01

Teach, never cheat

Robo gives hints and asks questions. He never gives away the answer.

02

The kid is the designer

The game looks like the kid's idea, not like ours. We frame it and step back.

03

Calm for parents, bright for kids

Teal and ink build trust. Sun, pink and tangerine are the play colors.

04

Stickers, not gloss

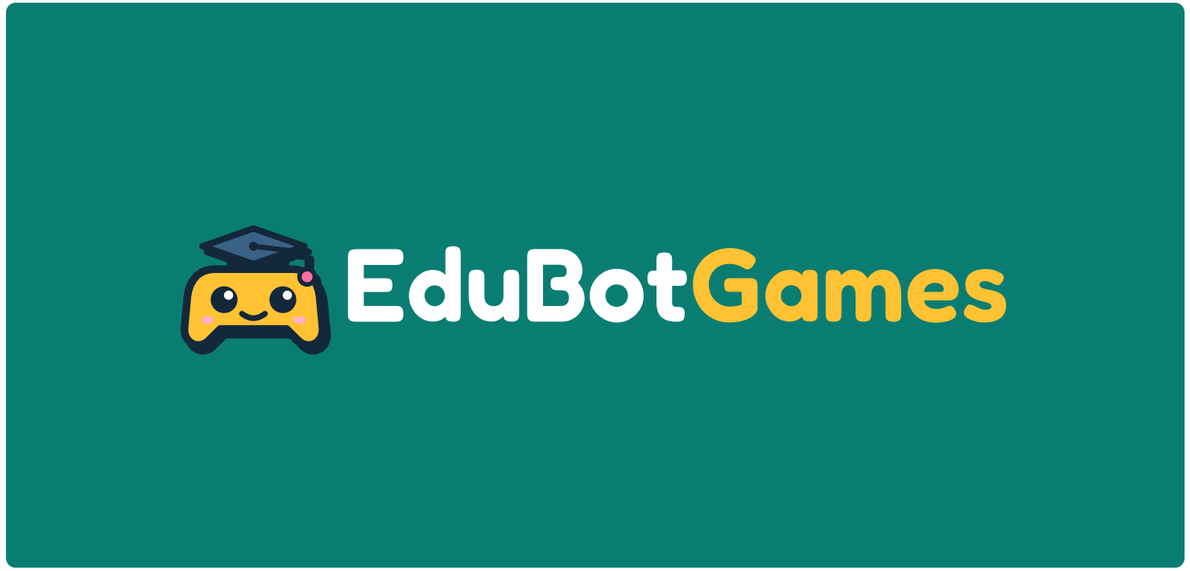

Flat fills, a thick ink line and a hard shadow. No gradients, no blur.

- ✓ **Short and warm**
  One idea per line. Kids read it in two seconds.
- ✓ **Hint, never tell**
  Ask a question that points the way.
- ✓ **Cheer the try**
  Celebrate in the game's own theme.
- ✓ **Numbers for parents**
  Before and after, then one next step.

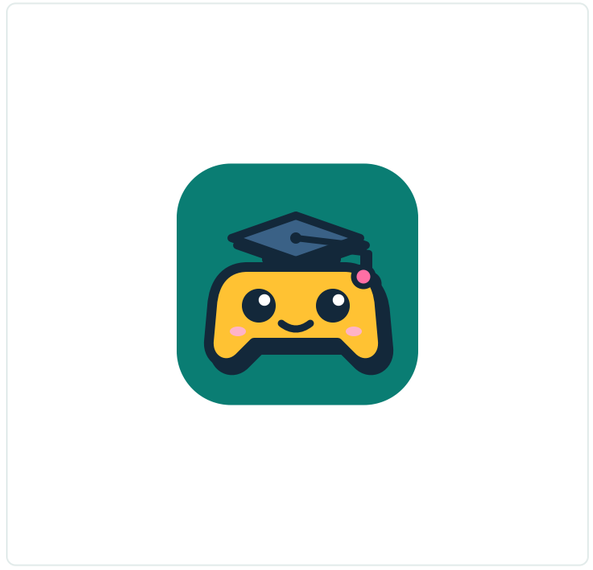

SAY	NOT

2.1 Primary logo

PadBot and the wordmark. PadBot is also Robo, the main character.

Concept by Cezary Dynak & Bart Szczepanski. Design by Bart Szczepanski © 2026

The parts that always appear together. Use the master files, never live type.

1. **Mortarboard**
   Cap blue #3A6186. The pink tassel is the bot's antenna.

2. **PadBot**
   Sun #FFC233 pad, ink line, pink cheeks, hard ink shadow.

3. **Wordmark**
   Fredoka SemiBold. EduBot in ink, Games in teal.

2.6 Logo don'ts

PadBot only works when he stays exactly as drawn.

Any other color.

Full color on ink: the line disappears.

Stretching or squeezing.

Rotating.

Another typeface or spelling.

Soft shadows, glows or blur.

A crew member as the logo.

An all-teal wordmark.
